## Mark continues to fight for Ajax

Over the past 4 years, Mark has fought hard for Ajax and for all Canadians as a member of the federal government, while helping his home community. From individuals to families, homeowners to business owners, children to seniors, Liberal policies have helped improve our quality of life.

**\$96  
MILLION**

**\$96 million** annually to Ajax families from the **Canada Child Benefit**, the largest payment to any community in Canada. Combined with our middle-class tax cuts, a typical family of 4 is now **\$2,000 better off** than before.

**1 M  
NEW JOBS**

**One-million jobs** added since November 2015, **lowest unemployment rate in over 40 years** and the single largest month for job gains since 1976 - 106,500 jobs (April 2019)

*"Mark and the federal government have been tremendously supportive of our local business in Ajax. The Women Entrepreneurship Fund supports our vision, creates jobs, and advances women's economic empowerment."*
